Tyco Fire Protection Solutions

Total solution providers throughout the Gulf States

one source, endless capabilities
What sets us apart from everyone else?
Our experience...

We have been at the forefront of the design, development and installation of a wide range of mechanical fire protection systems within the Gulf States for many years. These include conventional sprinkler systems and ‘Special Hazard’ systems such as medium and high velocity waterspray, foam and gaseous fire suppression for the Power Generation and Oil & Gas industries. From an industrial or commercial building to an oil & gas installation, our organisation has set the benchmark for the fire industry throughout the region.

A worldwide reputation and proven expertise for delivering complete fixed fire engineering solutions from concept to commissioning and beyond

At Tyco Fire & Security we have an extensive portfolio of mechanical fire protection solutions, coupled with an enviable global footprint and local knowledge that enables us to tackle all forms of small, medium, large and full turnkey projects for a wide range of market sectors.

Since our foundation along with our Partners, Suwaidi Engineering in 1994, we have provided total fire, security and telecoms solutions on numerous major projects throughout the region.

As a result, we have established long term relationships and partnerships with the vast majority of the Top 100 Companies operating within the Gulf States.
The markets we work in

Whatever the industry sector, no matter how large or small the project is - we have the right solution

We’re proud that our mechanical fire protection solutions keep thousands of people across the Gulf States safe every day and we’re committed to helping create safe environments that allow people to live and work with the certainty they’re fully protected from the threat of fire.

Solutions to meet the applications
- Banking & Finance
- Commercial Offices
- Data Centres
- Culture & Heritage
- Domestic & Residential
- Food
- Healthcare
- Hotel & Leisure
- Local & Central Government
- Manufacturing
- Marine
- Oil & Gas
- Power Generation & Utilities
- Retail Outlets & Shopping Malls
- Schools & Education
- Traffic & Transportation
- Warehousing & Distribution

We provide our customers with bespoke mechanical fixed fire engineering solutions to meet our client’s specific requirements

Our extensive product and services portfolio has not just happened by chance. It has been painstakingly developed as a result of completing ‘in-depth’ risk assessments of our client’s specific needs over a long period of time.

We thrive on the challenge of designing and developing new and innovative products and services to meet new types of fire risk that have emerged with each continued technological advance. Therefore, our clients’ can rest assured that the product or system that we provide will be the right solution, first time, every time.
Providing a complete range of mechanical fire engineering systems

Whatever the fire risk, from airports to refineries, from hotels to telecommunication facilities - we have the right solution

At Tyco Fire & Security, we offer fire protection solutions that rapidly suppress fires in their earliest stages before they have time to develop – and in most cases, even before the arrival of the local Civil Defence Authorities. With INERGEN and Sapphire Suppression Systems, we are able to offer clients with sustainable, environmentally-friendly technologies to protect their most valuable assets.

From traditional Sprinkler and Hose Reel Systems to advanced Deluge, Water Spray and Water Mist Systems, Tyco Fire & Security has the right solutions for todays’ modern fire risks.
The right solutions for today’s modern fire risks

**Water Based Extinguishing Systems**
- Sprinkler Systems
- Medium or High Velocity Waterspray
- Hydrants & Hose Reels
- Fire Pumps & Ring Mains
- Waterspray Curtains
- Fire Fighting Equipment

**Water Mist Systems**

**Foam Systems**
- Low, Medium & High Expansion Foam
- Hot Foam Systems
- Short & Long Throw Fixed Foam Monitors
- Remote Control & Oscillating Foam Monitors
- Foam Enhanced Sprinkler & Deluge
- Foam Pumping Skids
- Base Injection, Tank Top Pouring and Bund Protection

**Gas Extinguishing Systems**
- INERGEN
- Novac 1230 & FM200
- CO2 Systems
- Weather-Protected Enclosures

**Dry Chemical Systems**
- Fixed and Portable Systems

**Fire Fighting Equipment**
- Portable Extinguishers

**Aerosols & Hypoxic**
Delivery options

From a comprehensive product range to outstanding customer focus service - we have the right solution

Our team of highly trained, knowledgeable fire engineering specialists constantly strive to enhance our range of products and services by offering a range of delivery options to suit you.

Tyco Fire & Security provide design, engineering, installation, commissioning service and life cycle management of fixed fire protection, detection and extinguishing systems. Major systems house capability is complemented by a dedicated service support team to form the leading solution provider in fixed fire engineering.

Design, engineering and manufacturing expertise in mechanical and electrical fire disciplines, together with project management skills, trained installation service and commissioning staff has given us an enviable international reputation for total capability here in the Gulf States.

- Design
- Manufacture
- Fabrication
- Skid Build & Assembly
- Supply & Installation
- Commission
- Test & System Verification
- Project Management
- Service & Maintenance
Service Capabilities

From reliable service and support to total peace of mind - we have the right solution

Service & Maintenance
Our dedicated teams of service engineers are available to support our customer base providing electrical, mechanical, preventative and reactive maintenance throughout all market sectors. Formal maintenance contracts are tailored to meet individual needs that may range from an annual service visit to permanently manned sites.

Services Offered
- Weekly, Monthly, Quarterly, Semi-Annual & Annual Testing, Service and Inspection
- Full-time Site Management
- System Inspections
- Modifications and Extensions
- Training
- Refilling
- Spares and Refurbishment
- Calibration

Systems Covered
- Sprinkler/Deluge
- Foam
- Dry Powder
- Gas Extinguishing
- Fire Extinguishers
- Hose Reels

Standards of Excellence

Award-winning accreditation, certification and approvals

“We invest significant sums of money on an annual basis to secure accreditation and certification from Civil Defence Approval Authorities, Government Agencies and Fire Trade Associations. We do this not merely to gain sales leverage against our competitors.

We do it to safeguard the key interests of our customers because it is fundamental to the exceptional service we deliver. This commitment has enabled Tyco Fire & Security to achieve ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 Certification for its Abu Dhabi and Dubai Offices.

To ensure we retain our approval certificates, our employees are regularly and independently audited both internally and externally to assess their performance and standards of excellence.”

Whatever your needs, you can rest assured that all of our products and service are:

- Supplied by specialist fire engineers with the accreditation and expertise to competently safeguard your people and property
- Identified as the best product for you from our complete range of high technology fire protection solutions
- Complemented by our extraordinary service before, during and after the work is complete
- Designed to reduce the risk of false alarms and meet the requirements of Fire Safety Law
Clients we work for:

**OIL & GAS**
