Tyco Telecommunications Solutions
High technology solutions from the telecommunications engineering specialists

one source, endless capabilities
What sets us apart from everyone else?

Our experience...

With our range of custom-engineered dedicated solutions, Tyco Fire & Security provides Telecommunication Systems to our valued customers in the Oil & Gas, Petrochemicals, Energy Industries and Industrial market within the Middle East. We constantly rise to the unique challenges created within these high risk industries to ensure the specific needs of our customers are fully addressed in order to ensure continued uninterrupted telecommunications systems.

Specialist expertise, totally dedicated to your business with many years of proven experience
As part of the Tyco International group of companies, we manufacture some of the world’s most advanced telecommunications technology. In addition, our recognised experience has contributed to the development of close relationships with fellow manufacturers of specialist technology to provide us with an unrivalled portfolio of telecommunications solutions.

Customer Focus
With customer’s needs for rapid technology deployment across long distances and standardisation and compatibility with legacy systems, our reputation for total commitment and rigorous attention to detail ensures we provide the best-fit telecommunications infrastructure on time, every time.

Quality People
Our highly skilled in-house design, project engineering and installation teams ensure we are uniquely placed to provide a complete one-stop-shop for telecommunication projects.
The markets we work in
From a pipeline across a remote desert to an offshore platform in the middle of the sea - we have the right solution

The right solutions to meet specific telecommunications risks and hazards
From the comfort of a luxurious shopping mall to a harsh or benign industrial environment, our extensive product and services portfolio ensures that your telecommunications infrastructure is in constant contact with your employees and customers 24 hours a day, 365 days a year.
As specialist telecommunication providers we will assess the hazards and risks surrounding your assets before recommending any of our products or services. Our objective is to provide you with bespoke telecommunication solutions and we do this by working with you to understand your specific circumstances before deciding which one of our products or services is right for you. A selection of our innovative systems is shown in the categories listed below:

An innovative range of custom-engineered system solutions

From a stand-alone system to a fully integrated network system  *we have the right solution*
Challenging technology provides optimum levels of protection and information for total peace of mind

The system products illustrated on the opposite page represent only a small part of our extensive product portfolio. A more detailed breakdown of the key benefits and features of this portfolio can be supplied upon request along with appropriate system specific project profiles.

All our integrated radio, safety, security, telecommunications and voice & data systems fully comply with the highest International Standards of approval, such as those required by the International Telecommunications Union (ITU –Standards and Regulations).

All our products and systems incorporate flexible and modular configurations that contain future-proof architecture to safeguard your long term investment. They can also be configured in any form of network in order to suit our client’s individual needs.
Delivery options

From a comprehensive product range to outstanding customer focus service - we have the right solution

Our team of highly trained, knowledgeable telecommunications engineering specialists constantly strive to enhance our range of products and services by offering a range of delivery options to suit you.

As a leading provider Tyco Fire & Security have been installing, servicing and maintaining a variety of small, medium and large projects for many years and pride ourselves on our ability to exceed our customers’ expectations. We passionately believe in customer care and continuously invest in our people to ensure we provide unrivalled technical expertise complemented by outstanding customer service.
Service and Maintenance

From reliable service and support to total peace of mind - we have the right solution

Tyco Fire & Security has dedicated teams of service engineers to support our customer base providing preventative and reactive maintenance throughout all market sectors. Formal maintenance contracts are tailored to meet individual needs that may range from an annual service visit to permanently manned sites.

Services Offered
- Weekly, Monthly, Quarterly, Semi-Annual & Annual Testing, Service and Inspection
- Full-time Site Management
- System Inspections
- Modifications and Extensions
- Training
- Spares and Refurbishment
- Calibration

Standards of Excellence

Award-winning accreditation, certification and approvals

“We invest significant sums of money on an annual basis to secure accreditation and certification from Civil Defence Approval Authorities, Government Agencies and Fire Trade Associations. We do this not merely to gain sales leverage against our competitors.

We do it to safeguard the key interests of our customers because it is fundamental to the exceptional service we deliver. This commitment has enabled Tyco Fire & Security to achieve ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 Certification for its Abu Dhabi and Dubai Offices.

To ensure we retain our approval certificates, our employees are regularly and independently audited both internally and externally to assess their performance and standards of excellence."

Whatever your needs, you can rest assured that all of our products and service are:

✔ Supplied by specialist telecommunications engineers with the accreditation and expertise to competently safeguard your people and property

✔ Identified as the best product for you from our complete range of integrated telecommunications solutions

✔ Complemented by our extraordinary service before, during and after the work is complete
